

# Auto-feeling Liberation Artificiality

Micro step driver  
Digital Die Cutting Machine

Interlligent touch  
panel

MAX 80 sheets

Hi-def cameras

ARMS

Double pressure  
rolle

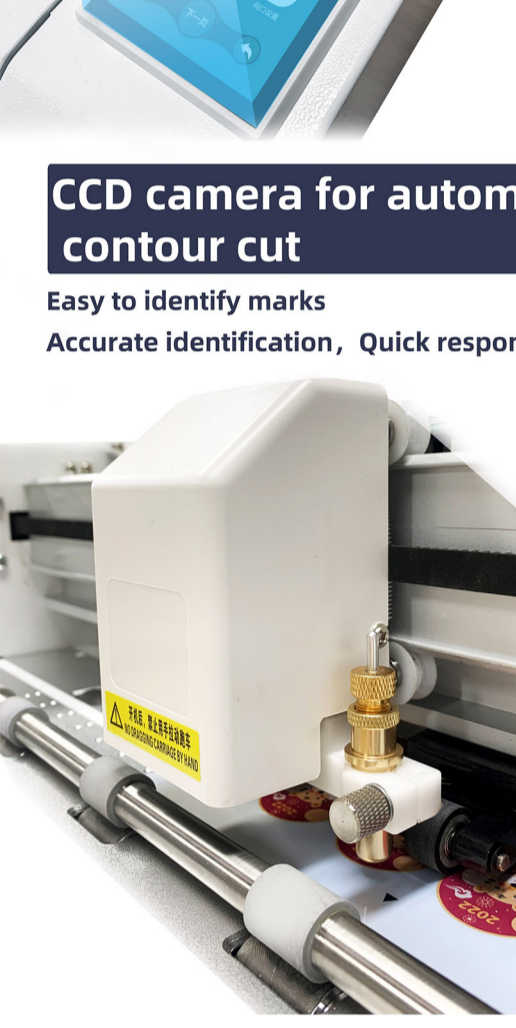

Multiple output

## Touch panel

Convenience and speed

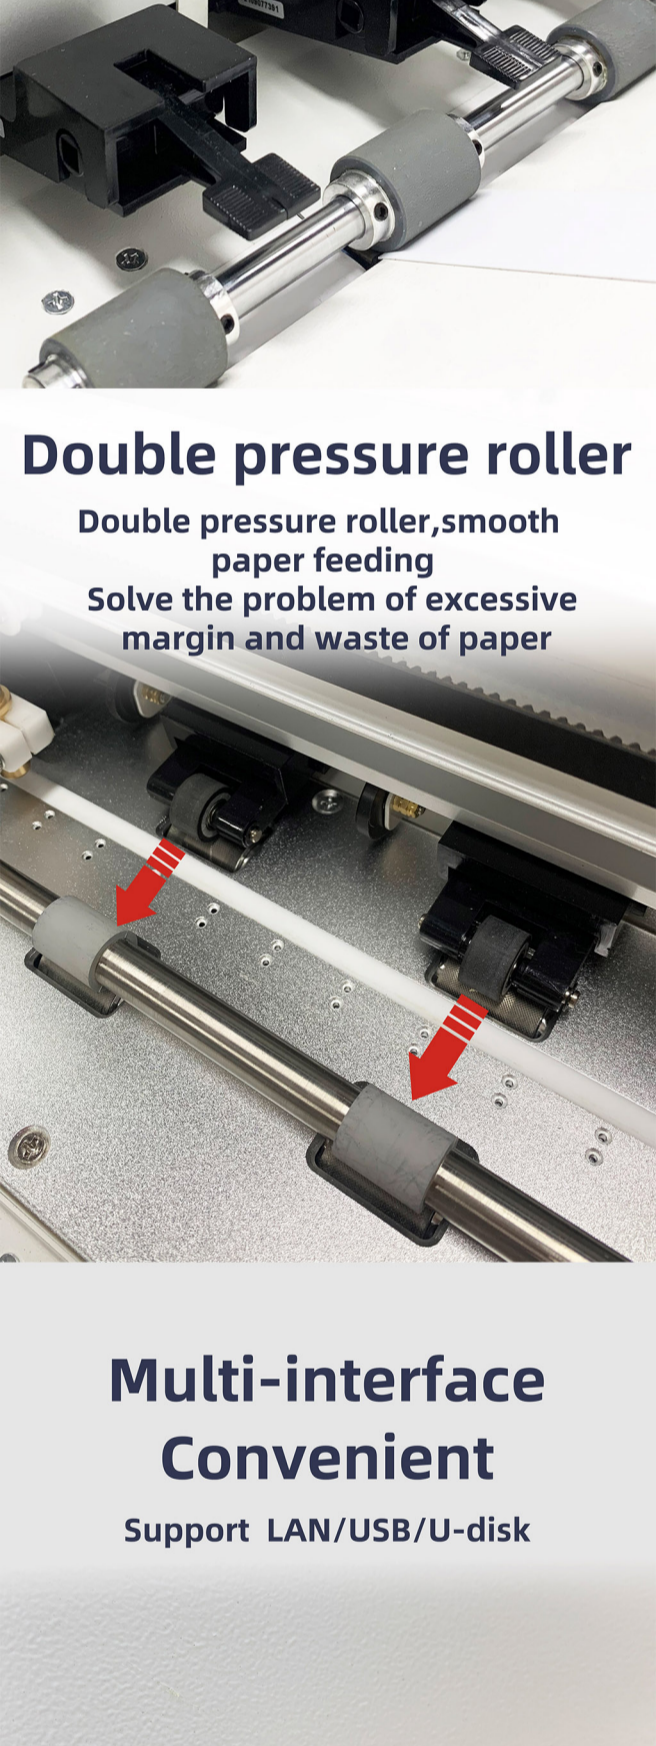

Easy to operate

## CCD camera for automatic contour cut

Easy to identify marks

Accurate identification, Quick response

## High pressure roller smooth paper feeding

## Double pressure roller

Double pressure roller,smooth

paper feeding

Solve the problem of excessive

margin and waste of paper

## Multi-interface Convenient

Support LAN/USB/U-disk

LAN port  
Connect Internet

USB  
Connect computer

U-disk  
U-disk port

## High capacity

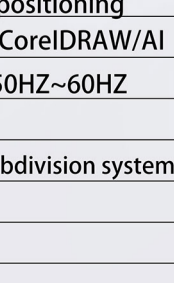

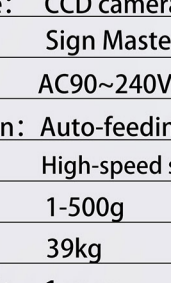

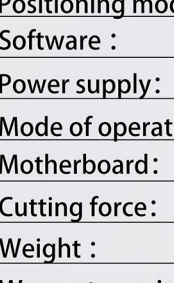

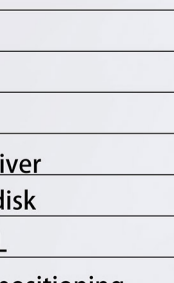

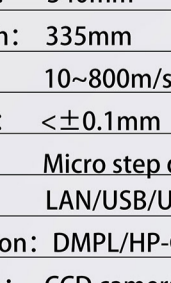

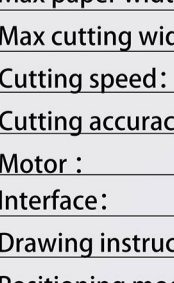

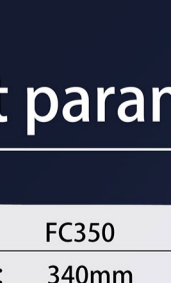

Max 80 sheets,suitable for

variety of materials

## Wide range of applications

Suitable for cutting all kinds  
of self-adhesive labels

## Product parameters

Model : FC350

Max paper width: 340mm

Max cutting width: 335mm

Cutting speed: 10~800m/s

Cutting accuracy:  $< \pm 0.1\text{mm}$

Motor : Micro step driver

Interface: LAN/USB/U-disk

Drawing instruction: DMPL/HP-GL

Positioning mode: CCD camera positioning

Software : Sign Master/CoreIDRAW/AI

Power supply: AC90~240V/50HZ~60HZ

Mode of operation: Auto-feeding

Motherboard: High-speed subdivision system

Cutting force: 1-500g

Weight : 39kg

Warranty period: 1 year
